You will also have the opportunity to learn about recent enhancements to NLS INsource that are specifically focused on benefiting life and health product compliance professionals.
- Speak with representatives about NLS INcompass, a solution that addresses the significant challenges of ensuring that regulatory changes are properly tracked, implemented, and reported on throughout your organization.
- Gather information on AuthenticWeb for Contract Provisions and AuthenticWeb for State Filing, tools that enable fast and accurate research into policy language requirements and state filing processes. Also available will be a white paper on the under-appreciated challenges and costs of the product filing approval process.
